## If...

You had the opportunity of getting in on the ground floor in what is destined to be one of Oregon's greatest industries—

## If...

You were convinced that this industry had successfully passed the experimental stage, and that the originators had already invested heavily with their money in demonstration work to insure safety for the investment or your own money—

## If...

You were offered the chance to become a stockholder in one of the biggest organizations of its kind in the West, with unlimited possibilities for money-making—

# Would It Appeal to You?

---

This is exactly the opportunity that is shortly going to be offered—so learn now the facts about this Company—and be prepared to place some of your money where you can watch it grow by leaps and bounds.

We have Mint roots sufficient to plant 1000 acres, representing in actual worth \$15,000.00. These roots will shortly begin to move from our experimental farm at Eagle Ridge to our big tract on the Caledonia Marsh.

Our land requirements have been anticipated for years to come and we have 1300 acres of as fine land to be found anywhere in the world. A big portion of which is in a high state of cultivation, and which is now producing astonishing yields.

We intend to plant this acreage to the different varieties of PEPPERMINT as fast as labor conditions will permit. We are the pioneers in this industry and are prepared to carry it to a successful conclusion.

After ascertaining that the investment is sound, and being desirous of pushing operations as rapidly as possible, we have decided to offer a LIMITED AMOUNT OF STOCK to investors, which will enable us to follow up our advantage and increase our acreage on the scale contemplated, thereby insuring for our original investors quick and handsome profits.

**ONLY A LIMITED AMOUNT OF STOCK IS GOING TO BE OFFERED BY THIS COMPANY—SO BE PREPARED AND WATCH FOR OUR NEXT ANNOUNCEMENT. FIRST COME, FIRST SERVED.**
